### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Brinkman on July 9, 2001.

2. The application has been amended as follows:

In each of claim 1, line 8; claim 9, line 10; claim 18, line 9 and claim 21, line 8 --during a dispense cycle-- has been inserted after "outlet".

In the Specification, on page 7, in lines 12-14 "\_\_\_\_\_ (Atty Docket No. BARN-03), filed on even date herewith under Express Mail No. EL32830240US" has been replaced with --09/520,529, filed March 8, 2000--.

3. The following is an examiner's statement of reasons for allowance: The claims are all now deemed to distinguish over the prior art of record in view of respective recitations in each of independent claims 1, 9, 18 and 21 of "...input device configured....volume of water to be dispensed from the outlet during a dispense cycle...", thus distinguishing over a plurality of prior art of record reciting input devices, in the form of end-of-life indicator and control systems

configured to select total volumes of water to be dispensed over the entire length of filter service in water purifying systems.

The amendment to the claims is supported by text of the instant Specification on page 12, lines 12-13 and page 14, lines 16-20, etc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Attachment for PTO-948 (Rev. 03/01, or earlier)**  
**6/18/01**

**The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.**

**INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

**1. Correction of Informalities -- 37 CFR 1.85**

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

**2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.**

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.

**Timing of Corrections**

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
